# OUR STORY

## WELCOME TO THE HUMMEL!

We cook Levante! For You and Your loved ones. Gather around our tables and enjoy each other's company! Savor the smells of oriental spices and experience together an evening full of new tastes.

Hummel – which also means „bumblebee“ - stands for sustainability, resource conservation and low waste. For this reason, we co-operate exclusively with small and medium-sized producers. For us, these companies are not only suppliers, but partners who support us in the implementation of our project. High quality is extremely important for us! Therefore, all products that we purchase are organic, from producers who are in the process of conversion or work ecologically, transparently and sustainably out of conviction.

## TO TAKE HOME

You can also enjoy the taste of the Hummel at home, because the delicacies of our partner companies are also represented in our store area. Feel free to browse through the variety of products and give someone a treat!

We are looking forward to welcome you!

Anna, Franz, Jana, Simon and  
the entire Hummel team

## OUR WINES

For us, „seasonality“ is also at the top of the list when it comes to wine, which is why it can happen that a certain wine has run out and we have to wait for the next harvest.!

### FISCHER WINE

Fischer Weine is a small family winery in St. Anna am Aigen, run by three siblings with a lot of passion for the product. During our private wine tastings, we immediately fell in love with the concept and the wines!
